Bedsheet clip for ECG trunk cables	2106399-002	1

NON-INVASIVE BLOOD PRESSURE

GE Healthcare provides a comprehensive portfolio of air hoses for use with GE Healthcare monitors connecting to CRITIKON™ blood pressure (BP) cuffs. The air hoses are offered in a variety of lengths and connectors for neonatal and for pediatric/adult use. The hoses are not made with natural rubber latex and help prevent air leakage by providing a secure connection to the blood pressure cuff.

For a complete list of cuffs compatible with your equipment, contact your GE Healthcare sales representative.

CUFFS

SOFT-CUF

Our most popular cuff, the CRITIKON™ SOFT-CUF™ is designed with soft, absorbent material with rounded corners for maximizing patient comfort during extended stays at the hospital. These cuffs are ideal for patients with longer term stays or for protocols where the cuff travels with the patient through their total length of time in the hospital. It can be cleaned and reused on multiple patients, but is priced economically so it can be disposed of after a single patient use, helping you affordably prevent infections.

20 cuffs/box

SIZE	COLOR	LIMB CIRCUMFERENCE	2-TUBE DINACLICK
Infant	Orange	8-13 cm	SFT-P1-2A
Child*	Green	12-19 cm	SFT-P2-2A-INT

6 cuffs : 1 Infant, 1 Child, 1 Small Adult, 1 Adult, 1 Large Adult, 1 Thigh	2059301-004

Validated quality

CRITIKON BP cuffs are validated with GE Healthcare monitors, and are part of an integrated clinical system.

Better infection control

Source of contamination ignored or underestimated, no other equipment is used more often than a blood pressure cuff without proper cleaning. GE's CRITIKON SOFT-CUF™ cuff provide the optimal solution to protect your patients.

DINACLICK Connector

Easy-to-use, fast DINACLICK connector enables nurses to link the cuff to the monitor faster than other dual-tube connectors.

Sized for comfort and accuracy

Using the wrong size BP cuff can affect determination accuracy. A full range of CRITIKON™ cuff sizes are available, from neonate, pediatric, adult and obese.

PRECISE MEASURES FOR INFORMED CHOICES

GE Healthcare offers **the first BP forearm cuff** clinically validated¹ for use on **obese or overly muscular adult patients**.

By adapting to the anatomy of obese patients, the RADIAL-CUF cuff optimizes the accuracy of the **blood pressure** measurements of this particularly risky patient population. **77% of patients** also consider it **more comfortable** than traditional blood pressure cuffs*.

SIZE	COLOR	LIMB CIRCUMFERENCE	2-TUBE DINACLICK
OBESE ADULT	PURPLE	26-36 CM (FOREARM)	SFT-F1-2A

1. The first clinically validated NIBP Cuff for providing accurate measurements from the forearm, GE Healthcare, 2013. 1. GE Healthcare has sponsored and compensated Clinimark, LLC for driving management of the clinical aspects of this study. (March 2008 / December 2011).

* GE Healthcare sponsored and compensated Clinimark LLC for managing and executing the clinical portions of this study (March 2008/ December 2011).

CUFFS

NEONATAL

Our neonatal BP cuffs are designed with the performance accuracy you trust and the gentle comfort you expect. Each of our 5 sizes is offered in a extra soft absorbent material (SOFT-CUF™ range) or easy-to-clean vinyl (CLASSIC-CUF™ range). Economical enough for pairing with a single patient throughout hospital stay.

20 cuffs/box			2-TUBE NEO-SNAP
